*Favourite/best Touch moments:*

**Club:** Participating in the annual Paris tournament is always a highlight. It's a truly international tournament and I'm looking forward to contesting the 10<sup>th</sup> edition later this season with the London Otters.

**Country:** Contributing to the transformation of the England Men's Open team over the last three seasons has been something I've enjoyed immensely.

*Profile:*

I grew up in Motueka, New Zealand, which is home to a very strong touch culture. The region has produced numerous New Zealand open grade players and I was coached through that system from a young age.

Whilst in New Zealand I made representative teams for Nelson Bays, Canterbury, Wellington, and I was selected in the New Zealand Universities team.

Six years ago I moved to the UK and after a Touch hiatus I resumed playing and joined the ranks of the London Otters and London Scorpions. I have been privileged to win back to back national titles with the South East Taipans and South East United respectively.

I've been fortunate to be a part of the England Men's Open team for the past three seasons. The chaps involved have exemplary attitudes and through hard work and determination we've been able to achieve much success in recent times. I'm excited to see how the team will perform on the world stage come TWC15.

*International record*

23 Caps with 13 Touchowns spanning 3 international tournaments.
