Favourite/best Touch moments:

Club: Player coaching Tumeke to victory at an NTS in Cambridge. In more recent times winning the social world cup in London. I had started off the day as a ref and the Germany team had a couple serious injuries so I filled in for them. We ended up taking it out quite convincingly with a random bunch of players that all gelled instantly and played well as a team.

Profile:

I grew up playing what people here refer to as 'bro' touch back in Rotorua which coincidentally was with my brother and family. Eventually moved to Wellington where I was taught structure before heading across to England. Here I started off with Justin and the Otters (now Scorpions) while also playing a competition here and there with Galaxy. Eventually a few friends and I decided we wanted to play our own style so started up Tumeke. In 2014 I had agreed to player/coach the South East United regional side. Fortunately we ended up taking the nationals out and that is where Benny Smith discovered me for the England Open Men's side.

For our Touch World Cup campaign I aim to get as fit as I have ever been in my life. I enjoy learning a different style of play and the challenge of merging my style with it. I would be stoked to reach the semis and from there to finish 3rd.
